Main Findings

- Iran considers itself a world power and NOT a regional power.
- Iran aspires to world dominance.
- Iran prepares for global Jihad (“initiative Jihad”):
  - As a religious precept
  - As a continuation of the Islamic Revolution
- The goal: bringing about Islam’s rule in the world.
Now, in order to continue the Islamic Revolution, it is our duty to continue with all [our] power our revolt against the Arrogant Ones [a term mostly used now in reference to the United States, see below] and the oppressors, and not cease until all Islam's commandments and the spread of the redeeming message of "there is no god except Allah" are realized in the whole world.

Islamic Culture and Religious Instruction, Grade 7 (ages 12 -13), 2004, p. 29
"O Muslims of all countries of the world! Since under the foreigners' dominance gradual death has been inflicted on you, you should overcome the fear of death and make use of the existence of the passionate and the martyrdom-seeking youths, who are ready to smash the borders of unbelief. Do not think of keeping the status quo. Rather, think of escape from captivity, of deliverance from slavery, and of attack against the enemies of Islam. Glory and life are in fighting, and the first step of fighting is [the existence of] will. After that, there is the decision that you forbid yourselves to [submit to] the supremacy of world unbelief and polytheism, especially America."

The Nature of the War

Art Instruction, Grade 8 (2004) p. 56
This struggle... will continue in this manner until the complete victory over the world of unbelief and arrogance, the eradication of any oppression, the appearance of the Master of the Age [the Shiite Hidden Imam], and the realization of the world government of Islam.

Islamic Culture and Religious Instruction,
Grade 8 (ages 13-14), 2004,  p. 96
"I am decisively announcing to the whole world that if the World Devourers wish to stand against our religion, we will stand against their whole world and will not cease until the annihilation of all of them. Either we all become free, or we all go to the greater liberty which is martyrdom... Either we shake one another's hand in joy at the victory of Islam in the world, or all of us will turn to eternal life and martyrdom. In both cases, victory and success are ours."

Islamic Viewpoint, Grade 11 (ages 16-17), p.29
Hate indoctrination
America is known as an Imperialist country, which embarks on military intervention wherever it sees that its interests are in danger. It does not refrain from massacring people, burying alive the soldiers of the opposite side and using weapons of mass destruction (as it did with Iraq). It makes use of atomic bombs (the bombardment of Japan). It uses the weapon of human rights in order to suppress the justice seekers (as it does in its abuses against Islamic Iran). It creates the greatest dictatorships and the most violent and torturing security-oriented regimes, and defends them. Nor does it feel uncomfortable at all while human rights are violated (Iran at the time of the Shah after 1953). Its security system runs the largest smuggling networks, but it makes use of the pretext of drug smuggling in order to arrest those who oppose its policies in other countries (the case of Panama).

Such being the case, what would, and should, be your reaction to America?

During the eight years of Holy Defense [i.e., the war with Iraq] more than 500,000 school students were sent to the fronts. 36,000 martyrs, thousands of missing-in-action, invalids, and liberated [prisoners-of-war] of this sacrificing section were offered to the Islamic Revolution.

About IMPACT-SE (Formerly CMIP).

- **IMPACT-SE** is a non-profit, non-political NGO dedicated to fostering peaceful relations between peoples and nations by accepting the "other" and rejecting violence as a means of resolving conflicts. Its purpose is to examine school curricula throughout the Middle East and determine whether the material conforms to international standards.

- **IMPACT-SE** concentrates on research of school textbooks, teachers’ guides and syllabi used in the Middle East in order to find out whether the younger generations are being educated to accept ‘the other,’ especially minorities in their midst, and to solve conflicts with them through negotiations and compromise, rather than being incited to rejection, hatred and violence.
